ABOUT THE BAND

They got together in early 2000 to form the ultimate live band, explosive, stylish, tight, groovy, cool and fun (No shoegazers!) - a band the members themselves would love to see.

THE MEN from Lund, Sweden, is something of a small "supergroup", formed out of four already established Swedish bands; The Sinners, The Girls, Thee Expression and Colubrids.

Short songs, sharp edges and right down explosive!

The sort of music that gets into your legs and starts you itching, according to Sven. Tambourines and handclaps meet jerky guitars, groovy bass and drums that do more than keep time.

Every now and then a harmonica wrestles with Sven Köhler's vocals over who can howl the loudest. **THE MEN** sound uncontrollably good, they play messy, raunchy rock, just as it was done in the very beginning.

THE MEN have released four albums so far; they have toured Spain, Germany and Australia, as well as Sweden; appeared on national television and radio, and their music can be heard in several American TV-series.
